

# Intermediate Navigation

4A

AT THE EDGE MOUNTAINEERING  
"Your greatest failure is not to try"

Dartmoor / Snowdonia / The Lake District | 0900 – 1630 | 1 Day

## INTRODUCTION

The aim of this course is to develop your basic navigation skills and to start venturing off the beaten track and into more remote environments. The course will take you away from footpaths and over some rough terrain.

## PREVIOUS EXPERIENCE

Ideally you will have either been on our INTRO TO NAVIGATION course or for those who have the basic navigation skills and want to learn new techniques to aid in their navigating. Knowledge of and experience in hill walking required.

## COURSE CONTENT

- Different types of maps and scales
- Grid references
- Pacing and Timing
- Naismith's rule
- Route planning
- Compass bearings
- Attack points
- Aiming off
- Catching Features
- Tick off features

- Smaller contour features
- Intro to poor visibility/night navigation
- Relocation techniques

## WHY CHOOSE AT THE EDGE MOUNTAINEERING

---

### **Our Values and Ethos**

Our ethos is to inspire you to get out and start enjoying the hills, mountains and crags of the UK. We want to help develop your skills and see you progress towards becoming an independent hill walker, mountaineer and/or climber. Mountaineering and climbing is our passion! Our instructors radiate this passion and we want to share this love of the mountains and crags with you too.

### **Flexibility**

Our 'course content' gives you an idea of what we will cover on the day, but this is not a set-in stone list. At the beginning of a course, our instructors will ask what you want to achieve by the end of the course and will endeavour to achieve this for you. If you and the group pick up the skills early on, there is no reason why we cannot progress and teach you more. And course timings are flexible too. We will aim to finish around 1630-1700 on most of our courses, but if you have no plans after the course and the weather is good, why rush going home.

### **Quality Instruction**

We strive to give you the best possible experience on every course! We want you to learn as much as possible in a safe and comfortable environment and offer an action-packed day in the hills and mountains and on the crags. Our aim is for our instructors to transfer their passion for the outdoors to you.

### **Experienced Instructors**

All of our instructors are qualified mountain leaders and rock climbing instructors as a minimum, members of professional associations, first aid trained and fully insured. Our instructors experience stretches from climbing on the Tors of Dartmoor to ski mountaineering in the Alps! We have intimate knowledge of all the areas our courses are based and have spent many days, weeks and months personally climbing, walking and training in these areas.

### **Friendly Atmosphere**

From the moment you first meet your instructor, you will be welcomed into a friendly and relaxed environment. Our aim is to make all our courses as friendly and relaxing as possible. Whilst you learn new skills, we want to find out more about you and get to know you too! And vice versa. Get to know your instructors and fellow course mates and make new friends to enjoy the hills, mountains and crags with.

## BRIEF ITINERARY

---

### **09:00** Meet & Greet

Course intro & briefs

### **09:45** Prep for walking

### **10:00** Start our day in the Hill

### **13:00** Stop for lunch

### **16:30** Course finish, debrief & Thanks

## EXTENDING YOUR COURSE / BESPOKE & 1:1 BOOKINGS

---

Do you have a thirst for more? Do you want to develop a certain area of your navigation? After attending one of our courses, you may wish to further develop your skills with a day of private instruction. These will be bespoke days, tailored to you, your aims and what you want to focus on and achieve. Private/bespoke days after a course are a great way to really develop your skills and progress at your pace, under the watchful eye of a qualified instructor.

Chat to your instructor during your course about private instruction days following your course or get in touch with us via email:
